

University of Washington Department of Physics

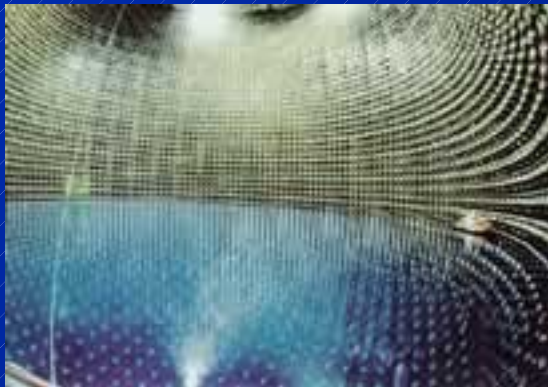

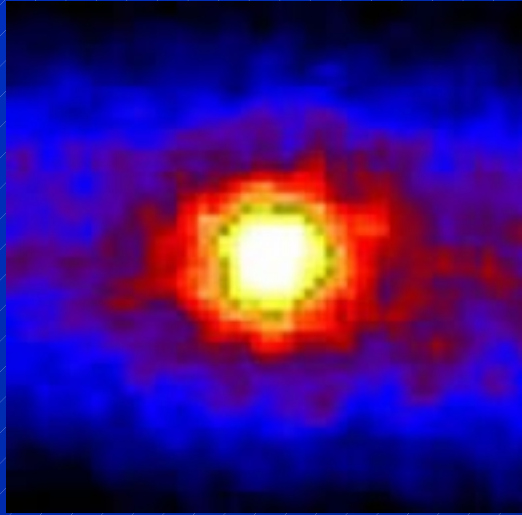

Facts:

- 44 Professors, 7 Associate Professors,
6 Assistant Professors
- 208 Graduate Students
- 290 Undergraduate Physics Major
- 1 Nobelpreisträger

Hans Dehmelt Nobelpreis für
Physik 1989 seit 2003
emmeritiert

Forschung:

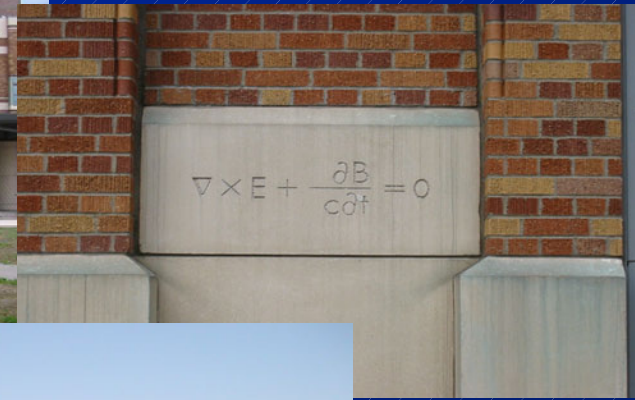

- Astrophysik
- Experimentelle Atomphysik
- Festkörperphysik
- Gravitationsphysik
- Kernphysik
- Teilchenphysik
- Neutrinophysik
- Stringtheorie

Vorlesungen:

- Advanced Quantum Mechanics
- High Energy Physics
- Nuclear Astrophysics
- Theory of Solids
- Group Theory
- Independent Studies
